

Building an innovation-driven regional economy

Clarksville – Fort Campbell

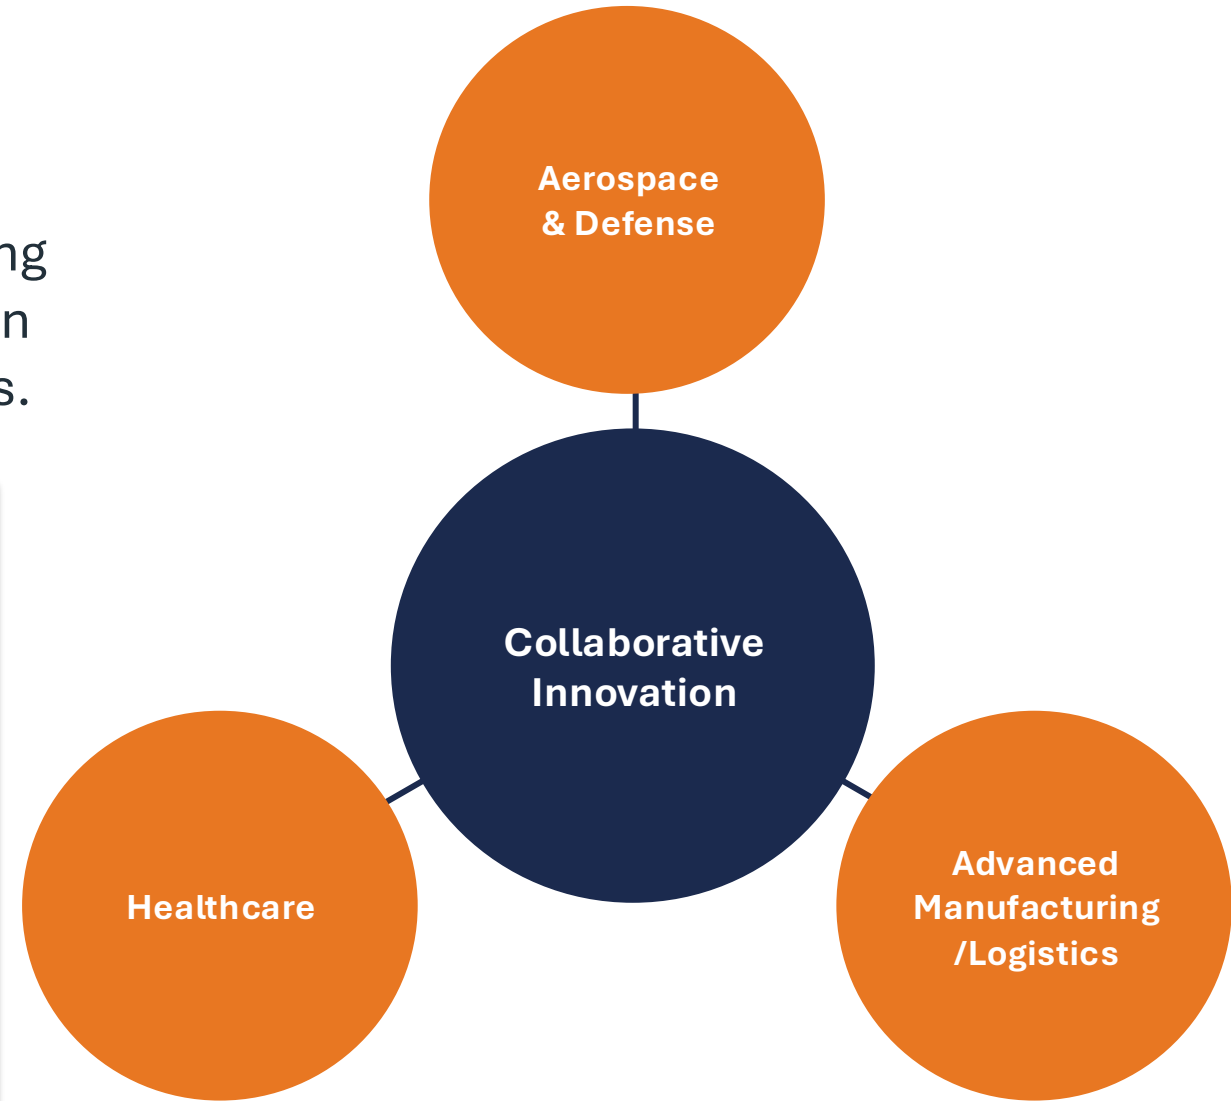

Why Clarksville – Fort Campbell?

The Clarksville – Fort Campbell region benefits from strong workforce generation enhanced by our veteran population, post-secondary education and training availability, coupled with its location on the I-24 logistics corridor. Regional leaders including city and county government, our Economic Development Council, and the private sector successfully collaborate to grow and sustain thriving clusters in downstream and upstream metals, automotive, and vulcanized materials. These strengths combined with our growing industry provide a unique opportunity for collaborative and innovative growth.

Strategic Priority

Cultivate collaborative innovation by developing and leveraging assets in the aerospace/aviation and defense, healthcare, and logistics clusters.

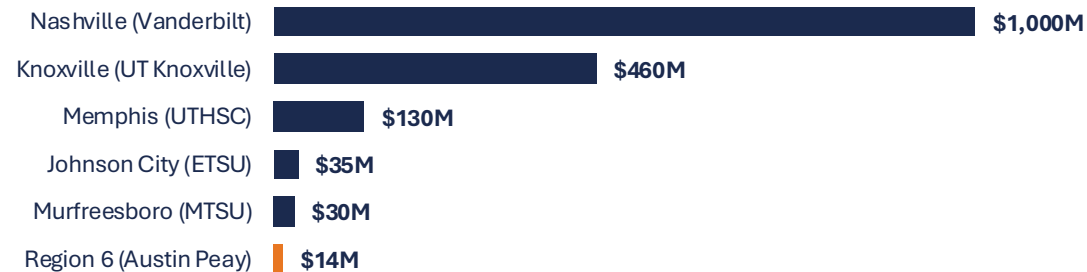

Why?

- We trail all other TN regions in patents awarded and University R&D expenditure and intensity
- Our region boasts strong local employment but falls below the national average in traded employment.
- Over 18,000 Montgomery county residents commute outside of the region for work daily (Davidson, Williamson, Rutherford).

Region 6 trails Tennessee on research

University R&D expenditure by anchor institution (\$M, approx.)

Strong local base, thin traded sector

Share of Clarksville MSA jobs, top sectors (2022)

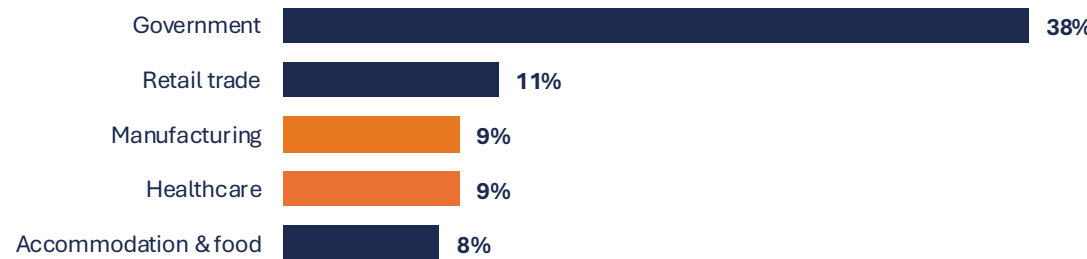

EXHIBIT 11: TOP 5 INDUSTRIES BY EMPLOYMENT, CLARKSVILLE MSA

Industry (NAICS Code)	2022 Jobs	% of Total Employment	Growth 2018 – 2022	Growth Forecast 2018 - 2028	
				Percent Growth	Net Growth
Government (90)	50,157	38%	2,635	10%	4,557

5

Shared Outcomes of a Thriving Innovation Region

● Innovation company growth

● Research partnerships

● Private investment

● Talent retention / degree attainment

● Military transition success

● Workforce participation

● Attainable housing

● Childcare capacity

● Business formation

● Quality of life

Measures of Effectiveness

Innovation company growth **+ Total Companies**

Innovation-sector firms (Census CBP)

Research partnerships **Obtain at least 1**

Sponsored research \$ (NSF HERD)

Private investment **+ Total \$**

Private capital investment (TNECD / EDC)

Talent retention **+ YOY Employment**

Grads retained in region (Census LEHD)

Military transition success **+4%**

Soldiers retained locally (36% to 40%)

Workforce participation **+4 pts**

Labor force participation rate (Census ACS)

Attainable housing **-8 pts**

Cost-burdened households (Census ACS)

Childcare capacity **+25%**

Licensed childcare slots (TN DHS)

Business formation **+18%**

Business applications per capita (Census BFS)

Quality of life **+10 pts**

Resident satisfaction survey (annual)
